### ON MY TIPS

Developer are Basically Expert Google Searchers  
And Yes I am a Self Learnt Web Developer And Programmer.

#### FRONT- END

I started my Journey Right From Here. **HTML** Tells me how to make Skeleton **CSS** Tells me To put some clothes in. **Javascript** Tells me right way Dressing up. LMAO

#### JAVASCRIPT- FRAMEWORK

When I was Learning Basic I thought **HTML**, **CSS** and **Javascript** is everything. But No, Then I came to know about Frameworks. Then I Fell In Love with **REACT.JS** And also came to know How Facebook Is Developed.

#### DataBase- Back- End Development

So, When I Finished Up with Front- End BootCamp. I was now very keen to learn how Facebook manage their users Data So, then I came across Something called Database. And then I Learned **MongoDB**, **Node.JS**, **EJS**, **SQL**.

#### Authentication

So, After that I was keen that how they secure their Data then I came across **md5 Security**, **Google Authentication** and Our own Server with user Privacy.

#### Git & Github

To Fasten my Work I learnt **Git** and version control. And for Javascript I learnt **Jquery**.
